4-H Fishing Club Rules and Expectations

The Carter County 4-H Fishing Club is starting its first year of existence in the summer of 2023. We will meet from March-September. The dates of meetings will be set at the first informational meeting. We are also looking for more adult volunteers to be a certified volunteer so that we may have more fishing opportunities!

All youth shall fill out an enrollment form, and youth and their guardian must sign the rules document. All youth and their guardians are expected to show respect to each other, have good sportsmanship, and follow all rules and the 4-H Code of Conduct at all times.

The Carter County 4-H Fishing Club is to help educate youth and their families on how to practice safe fishing, practice fishing skills, and learn other factors that can be involved with fishing. There will be times where fishing tournaments will be advertised, but they are not mandated or an expectation. They are just a different way to practice the youths skills in a different way.

Please sign the attached document stating that you as the youth and the youth's guardian understand the general rules and expectations of you while at the fishing practices. These are in place so that we can practice all safety associated with fishing. If the following document is not signed by the youth and their guardian, that youth will not be able to participate in the fishing club for the program year.

Thank you,

Rebecca Hayes

Carter County 4-H Youth Development Agent

Carter County 4-H Fishing Club Rules

The following are the rules and expectations of the Carter County 4-H Fishing Club. Please sign the bottom of this page and return to the 4-H Agent or Fishing Club Leader after signed. The youth may not participate in the fishing days if this document and an enrollment form are not returned.

1. All youth and guardians are expected to have good sportsmanship. We are here to provide a positive youth development experience.
2. Everyone present must be respectful to all equipment, whether it is your personal equipment, another member's equipment, or the 4-H equipment.
3. Everyone present is expected to listen and be paying attention. Listen to the 4-H Agent and Club leader about any possible dangers or rules for the day. All youth should make sure to listen to any adult in the area about any possible dangers.
4. We are advising wearing a lifejacket if the youth is not within 10 feet of a responsible adult.
5. Be respectful of personal space. Please stay about 6ft away from the person fishing next to you.
6. Following any and all other rules and regulations set forth at the fishing locations.

I understand the rules above and will follow them to the best of my ability.
